## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/19/04 has been entered.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 11, 12, 14-16, and 20-22 are rejected under 35 U.S.C. 102(e) as being anticipated by Miller et al (US 6,626,319). Regarding claim 20, see Figs. 1-5 where the claimed structure is shown. Regarding claim 21, see Col. Lines 59-63, where the support members allow for some movement in both the vertical and horizontal directions. This would also apply for the support assembly on the top of the tank and give the orthogonal movement. Regarding claim 22, see Fig. 4. Regarding claim 11,

see Figs. 1-4, where the third can be found among the group. Regarding claims 12, and 14-16, see Figs. 1-5 where the structure is shown.

### ***Allowable Subject Matter***

Claims 17-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments with respect to claims 11, 12, 14-16 and 20-22 have been considered but are moot in view of the new ground(s) of rejection.
